Brand Guidelines

REVISED JANUARY 8, 2026

Odyssey[®]

About Odyssey Logistics

One Odyssey.

Odyssey Logistics is a global leader in multimodal logistics, providing technology-driven solutions that optimize supply chains across industries and continents. Our comprehensive portfolio—including intermodal, rail, ground transportation, warehousing, and managed services—ensures seamless, efficient freight movement.

With 82 locations worldwide and generating more than \$1B in annual revenue, Odyssey is committed to innovation, operational excellence, and sustainability through our CloverLeaf® program. Headquartered in Charlotte, NC, we partner with businesses of all sizes to help navigate market challenges and drive success. We'll get there together. Learn more at www.odysseylogistics.com. »

Questions & Feedback

Defining the Odyssey Brand

Defining the Brand

The Odyssey Logistics brand is more than just an idea on paper.

It is the embodiment of our company, encompassing all of the experiences and expectations that people associate with us.

To protect the integrity of the visual and verbal expression of the Odyssey brand, it is critical to following the guidelines outlined.

Our brand exemplifies the work we do with cities to manage the multimodal logistics needs across the globe.

Contact communications@odysseylogistics.com for all questions regarding this brand standards guide.

Logo Usage & Guidelines

Primary Logo

Odyssey®

The Odyssey logo is our primary logo, and is to be used across all businesses and services. Please be sure the Registered Trademark symbol is present when using the corporate logo.

The logo should always be shown in either Odyssey Blue against light backgrounds or white against dark.

Never outline or otherwise modify the logo.

Primary Logo
KNOCKOUT TO WHITE

Primary Logo
ODYSSEY BLUE

Grayscale

Single-Color Production

In black & white one-color production, it is permissible to use the logo in solid white or black.

Primary Logo
KNOCKOUT TO WHITE

Primary Logo
BLACK

Clear Space

The Odyssey logo should be afforded clear space around its perimeter to help it read clearly among other elements.

The recommended clear space is equal to the height of the “s” in the logotype.

Primary Logo
RECOMMENDED CLEAR SPACE

Acceptable Usage

The Odyssey logo should only be used on approved backgrounds, colors, and approved photography in areas that are not busy and maintain clear legibility.

Do not use the Odyssey logo on colors or backgrounds that are not in this brand guide without approval from Marketing.

The logo can appear in Odyssey Blue, white, or black **only**.

When placing the logo against photos, use colors that ensure sufficient contrast.

The logo can appear in black **only** in single-color grayscale reproduction.

The logo can appear in white against solid colors with sufficient contrast.

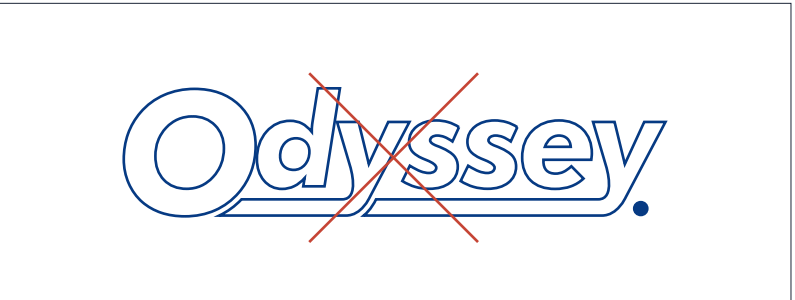

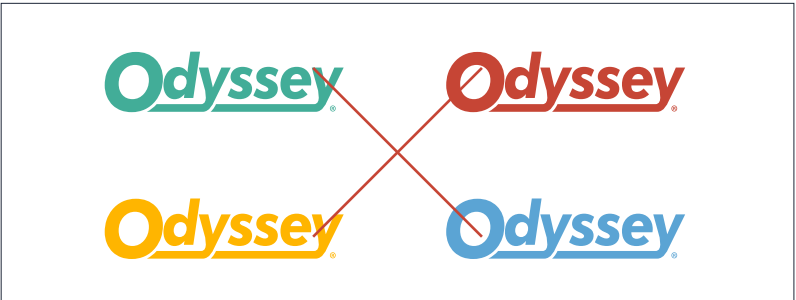

Non-Acceptable Usage

Correct and consistent use of the Odyssey logo is an essential part of building and maintaining brand equity. While a great deal of flexibility has been built into the visual identity system, the correct use of each element has been carefully defined.

The examples shown here represent some – but not all – of the ways the Odyssey logo might be used incorrectly.

DO NOT use the logo in any color other than Odyssey Blue, white, or black.

DO NOT outline the logo.

DO NOT place the logo against photos in colors with insufficient contrast.

DO NOT use the logo as an image container.

DO NOT scale the logo disproportionately in either direction, skew it, reverse it, or otherwise distort it.

DO NOT fill the logo with gradients or add any other decorative embellishment.

DO NOT place the logo against color with insufficient contrast, or use the black logo in a color layout.

DO NOT add taglines of any kind to the logo.

DO NOT use TM instead of [®]

Odyssey's Angle

A Unique Element

Odyssey's identity includes a forward-leaning parallelogram as an important graphic device. This shape is changeable in proportion and can be used as a solid color or a photographic container. The key element is the angle of the diagonal sides.

As we'll discuss later in this document, the angle is also an important tool for developing graphic layouts.

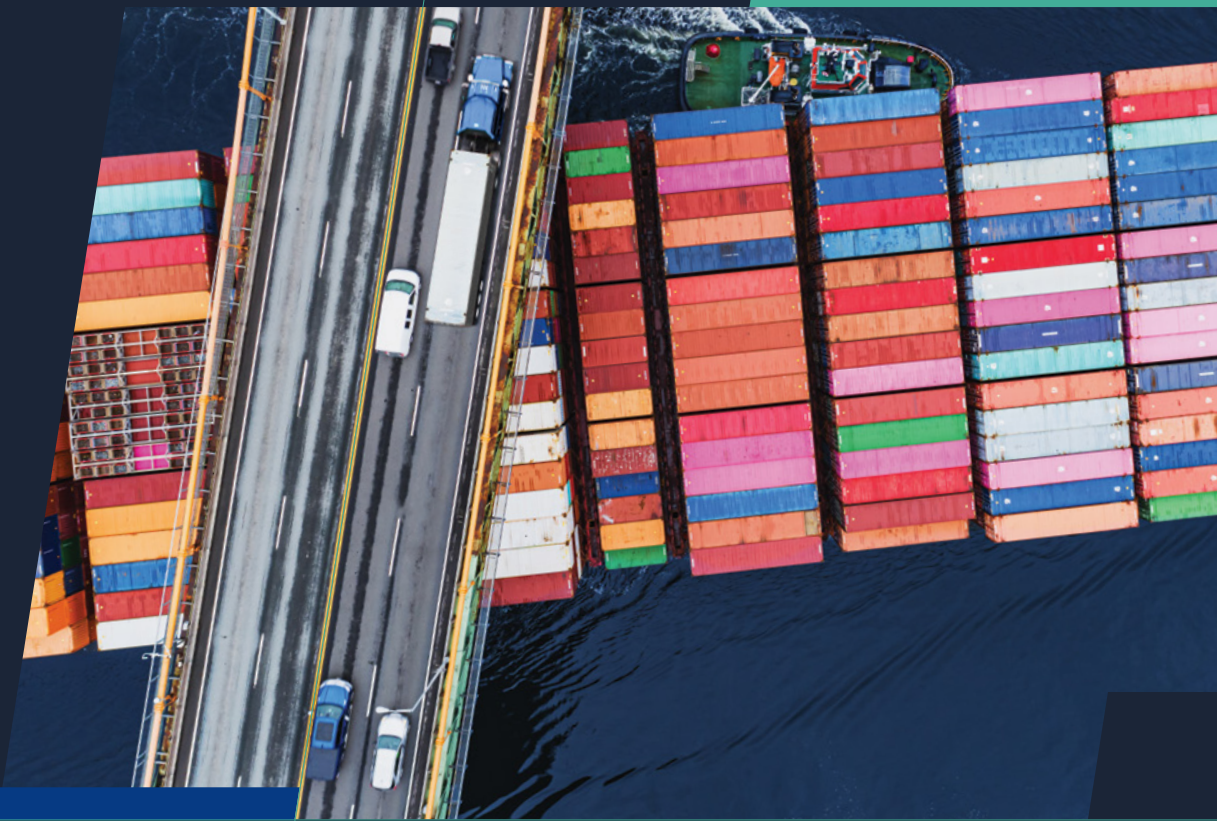

Born From the Logo

The specific angle, 8.94°, is specified to match the forward slant of Futura Bold Italic, which is the typeface used to construct the Odyssey logo.

Please be mindful of this angle as you resize the parallelogram in layouts, as non-proportional scaling will change the corner angle measurements.

Odyssey®

8.94°

Additional Logos & Usage

Do You Know Campaign

Odyssey’s “Do You Know” marketing campaign features a custom wordmark. This element has been prepared for use primarily in two colors:

Deep Sea Blue

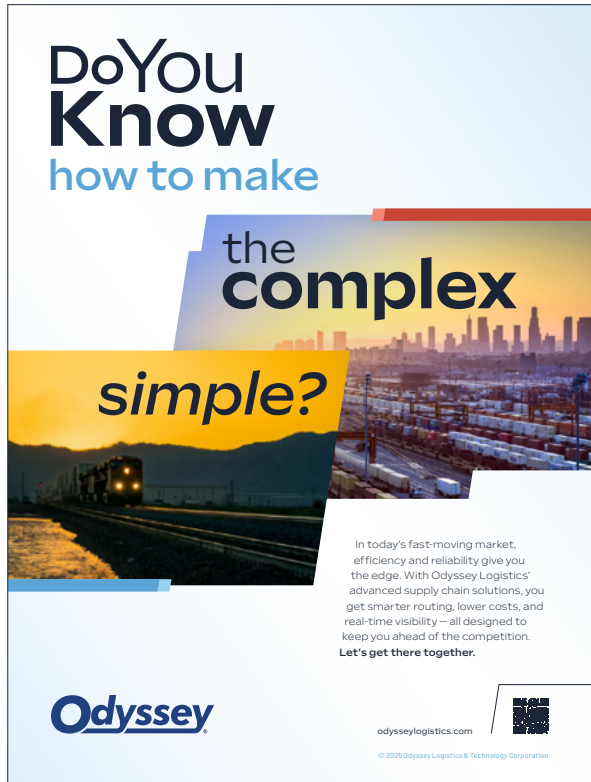

White

The use of this DYK mark in any other color must be approved by the Marketing Department.

When combined with a following headline, as in our print advertising, that headline generally features lead-in text set in Sculpin Medium, in Carolina Blue, formatted to read “Do You Know how to ...”

DoYou Know

Do You Know Wordmark
SINGLE COLOR

DoYou Know

Do You Know Wordmark
KNOCKOUT TO WHITE

Additional Logos & Usage

Responsible Care

Use of the Responsible Care® logo is applicable in certified locations or appropriate materials. The logo should appear as shown opposite, and never modified.

The ® symbol must always accompany the Responsible Care® logo to indicate that it is a registered service mark of the American Chemistry Council. The “hands” logo mark also is a separate registered service mark of the ACC and it may be divided from the type and statement and used as a stand-alone logo. When the “hands” logo mark is used alone, the ® symbol must be included as shown.

It should always be printed in the specified blue, white, or black unless production methods dictate a limited palette.

If you have any questions about usage, contact the Marketing Department at communications@odysseylogistics.com. »

Additional Logos & Usage

CloverLeaf™

Odyssey’s CloverLeaf™ program includes a custom logo designed to highlight the beneficial aspects of the initiative. It has been prepared in two color combinations:

A full-color version that employs three shades of blue, green, and dark gray (available in CMYK process and Pantone spot color).

A single-color knockout version for use against dark backgrounds.

Do not use the logo in any other color combinations than these two approved versions without specific permission from the Marketing Department.

In text, please be sure to capitalize **Clover** and **Leaf**, *without a space between*. On first mention, the name should be accompanied by a ™ mark.

The Odyssey Icon Library

Odyssey’s Approved Iconography

The Marketing Department possesses a large library of uniformly designed icons for use in virtually any application or product.

The icons have a heavy line weight and soft corners, which help them provide a humanizing contrast to the Odyssey Angle.

When deploying icons, keep in mind that the weight of the lines may encourage a smaller size when presented with typography so as not to overwhelm the text.

These icons can be used in any of the Odyssey colors, as long as there is sufficient contrast against the background.

Do not put the icons in discs or other container shapes; they should be left as floating elements in your layout, as if they were type.

Less is more with icons; try to keep the number of icons on any particular page (or object) to the minimum necessary, and always at the same scale.

Contact the Marketing Department for questions about the use of icons at communications@odysseylogistics.com. »

Example Icons
FROM A LIBRARY OF OVER 14,000 ICONS

Multicolor
TWO COLORS MAXIMUM. USE A SECOND COLOR TO EMPHASIZE AN IMPORTANT ELEMENT OR DIVISIONAL SPECIFICITY.

-  Warehousing and distribution

Suggested Usage
NOTE SCALE, DIVISION-SPECIFIC COLOR, AND PLACEMENT

Color Palette

Primary Colors

Expertise & Capability

Our color palette is designed to add more variety in Odyssey’s visual presentation, while conveying expertise and diversity of capability.

Odyssey Blue is our primary brand color.

Deep Sea Blue is specified for a base color and text, and is a primary color in the new brand identity alongside Odyssey Blue.

Shown here are the colors with specifications in hex, Pantone, RGB, and CMYK.

Heritage Accent

Odyssey Blue
#063A83 / PMS 534

R	6	G	58	B	131
C	100	M	87	Y	20
K	6				

Odyssey Blue is retained for the logo and primary accent usage, including color bars, headline containers, subheads, and other selected applications.

Primary Base

Deep Sea Blue
#1B2537 / PMS 5395

R	27	G	37	B	55
C	88	M	77	Y	51
K	58				

Deep Sea Blue is the primary color for text, headlines, backgrounds, and headline containers.

It should *not* be used for the Odyssey logo.

Base

White
#FFFFFF

R	255	G	255	B	255
C	0	M	0	Y	0
K	0				

Secondary Colors

Primary Divisional Indicators

We have assigned specific secondary colors to our four divisions. These serve to be primary indicators of the group and services being discussed in materials.

While these should be the primary accent color for their assigned groups, the colors remain available to be used as complementary, tertiary embellishments for the entire organization.

Typography

Typography

Complementary Typefaces

The Odyssey brand identity specifies two typefaces: Sculpin and Barlow.

Sculpin

Sculpin is the primary display face for Odyssey, and should be used in headlines and other large-scale instances, in both print and online. **This typeface is available from Adobe as part of the Creative Cloud service. »**

Barlow

Use Barlow for body text, captions, and most other type. Also, when Sculpin is not available, such as in PowerPoint, or for anyone not using Adobe’s Creative Cloud, Barlow is the choice.

As such, Barlow will be the primary workhorse typeface for Odyssey going forward. **Barlow is freely available as an open-source typeface from Google Fonts. »**

Arial, Helvetica, etc.

In cases where neither of the above is available, please use Arial or Helvetica. Open Sans, Calibri, and any other typeface not mentioned here should not be used.

The cost savings of rail with the flexibility of over-the-road transport.

Odyssey Logistics is a trusted leader in intermodal rail solutions, helping shippers optimize cost, performance, and sustainability across long-haul freight moves. With a deep understanding of domestic and cross-border rail networks, Odyssey seamlessly integrates intermodal rail with over-the-road and drayage services to deliver scalable, end-to-end logistics. Our proprietary technology, operational expertise, and strong carrier relationships ensure greater visibility, fewer handoffs, and reduced risk, making Odyssey the partner of choice for intermodal efficiency and reliability.

Metals Distribution

Our proven load-and-roll-pallet process is engineered to evenly distribute weight, providing safe, reliable, and damage-free transport. Using our data-driven modal analysis, we design global, customized metals distribution programs which benefit from of our strategic network of transload facilities.

Brand Applications

PowerPoint

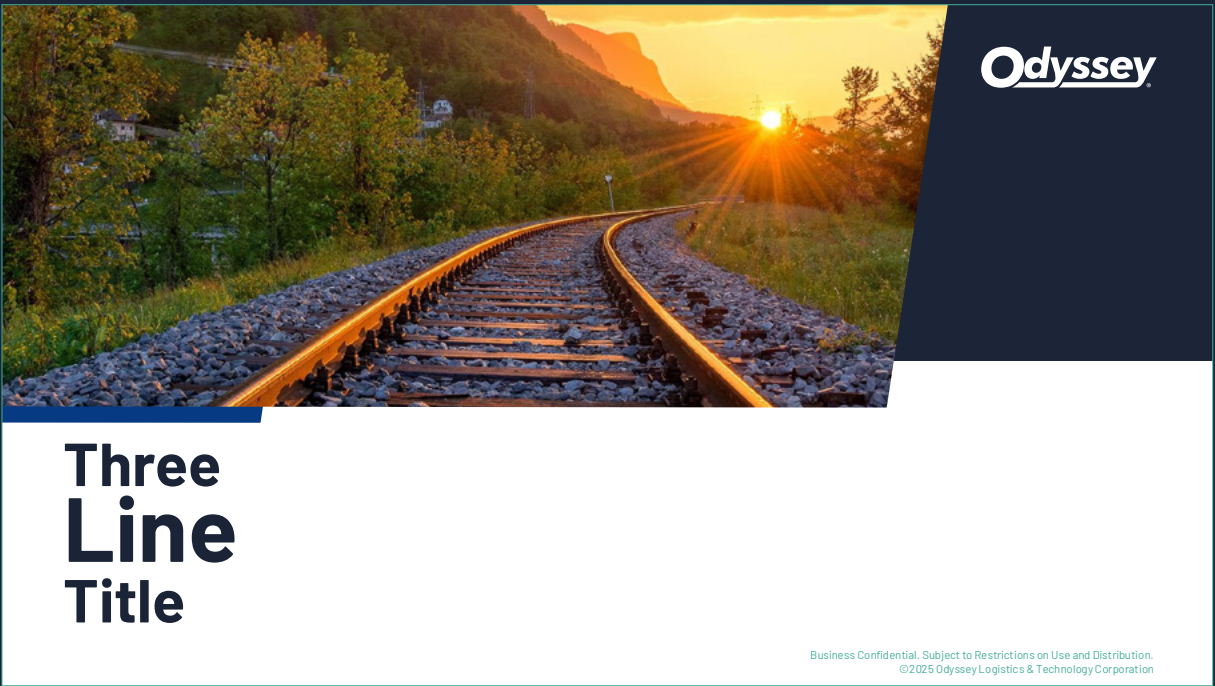

Built-in Features

The PowerPoint template includes templates for the standard slide layouts.

All type should be set in Barlow, which is set as the default font in the file.

Odyssey’s color palette has been built into the template’s theme as well.

The shape of picture placeholders on the cover and title slides should not be adjusted. Additional imagery can use standard rectangular containers.

Email Signature

Built with HTML

Maintaining consistent company-wide email signatures is an important initiative. You must not alter, add onto, delete from, or otherwise edit your email signature in any way that is inconsistent with the template formats and instructions below.

Our email signature is composed in HTML and features a linked (i.e., not a file attachment) logo and brand fonts specified via CSS for those who have them available.

For those who do not, the code includes Arial and system-default sans serif as fallbacks.

As noted earlier, the use of Arial is acceptable in scenarios where Sculpin & Barlow are unavailable.

Questions regarding email signature installation should be directed to the Marketing Department.

Standard Signature
HTML

Standard Signature with Responsible Care
HTML

Installation Instructions

Outlook for Windows

- 1 Open the signature layout in your browser:

Standard version » Responsible Care version »

To omit a mobile number, use one of these templates:

Standard, no mobile » Responsible Care, no mobile »
- 2 Select All (Ctrl+A), and then Copy (Ctrl+C) it to your clipboard.
- 3 In Outlook, click **New Email** to open the message composer.
- 4 Click **Signature** in the message toolbar and then the Signatures option to open the Signature Settings modal.
- 5 Select the **Existing Signature** you'd like to edit, or click **New** to create one.
- 6 Paste your signature into the signature editor. Edit your details **carefully**, using the keyboard to type and delete. (Triple-clicking entire lines and typing over them may remove formatting.)
- 7 In Signature Settings, be sure to set your new signature as the **default** for your Odyssey mail account.

Stationery

A Simple System

The stationery system strives for clarity and simplicity, with an economy of production requirements.

Business Cards

Odyssey’s business cards accommodate a wide range of information lengths, suitable for the company’s global reach.

Responsible Care

When the Responsible Care logo is required for an employee’s business card, please refer to the bottom two layouts at right for placement and sizing.

Stationery

Business Card with QR vCard

An optional feature for business cards is the inclusion of a QR code that links to a digital vCard.

This is generated through Bit.ly's [QR Code Generator](#) using the specifications at right.

Voice Greetings

Your Voice Is Our Voice

How we greet customers, partners, and the general public matters. Here are some script options for answering a call.

Basic Greeting

Thank you for calling Odyssey Logistics. How may I help you today?

Greeting with Name

Hello, this is [Your Name] at Odyssey Logistics.
How may I help you today?

Greeting with Language Options

Hello, you have reached Odyssey Logistics.
To continue in English, press 1. For Spanish, press 2.

Greeting with IVR

Thank you for calling Odyssey Logistics.
Please press 1 for sales, 2 for support, 3 for billing,
or 0 to speak with a representative.

Greeting with After-Hours Message

Thank you for calling Odyssey Logistics.
We are currently closed. Our hours of operation are
[day] through [day], [time] am to [time] pm. If you have an
urgent matter, please press 1 and we will try to reach
someone for you. Otherwise, please leave a message
and we will return your call as soon as possible.

Signage

Basic Signage Guidelines

- Allow space around the logo. (see page 8)
- Signs may be white, Odyssey Blue, or Deep Sea Blue.
- Use contrasting colors for text, either Odyssey Blue, Deep Sea Blue, or White.
- The logo should always be either Odyssey Blue or White.
- Text on additional signage requirements should be set in Sculpin or Barlow, as shown in the examples at right.
- If directional symbols are required, use icons from Odyssey’s library.

For Production Vendor contacts, reach out to the Marketing Department or the Procurement Team lead.

SCULPIN OR BARLOW

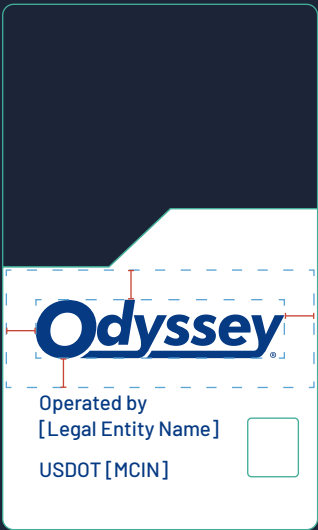

Signage Mockups

Vehicle Graphics

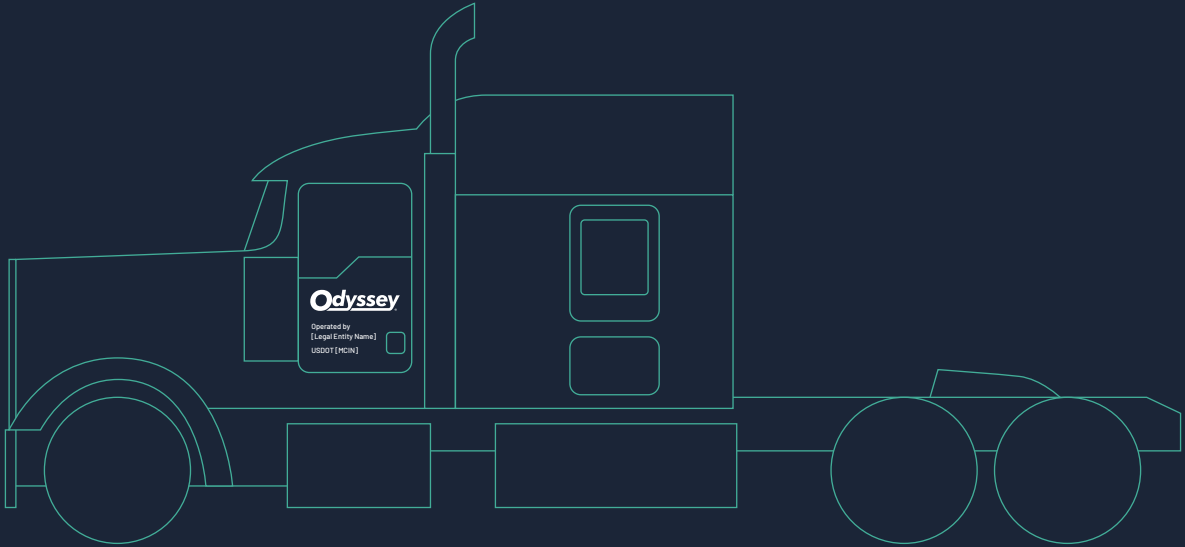

General Guidelines

- If the truck is light in color, use Odyssey Blue.
- If the truck is dark in color, use white.
- Set type in Barlow Medium, allowing space between the entity name and USDOT #. If Barlow is unavailable, acceptable alternatives are DIN, FHWA Series/Highway Gothic/Clearview, Helvetica, or Arial.
- Allow space around the logo.
- Align text flush left on the driver door and flush right on the passenger door to a) avoid door handles, and b) suggest forward motion.
- Adhere to USDOT regulations for size and contrast considerations.

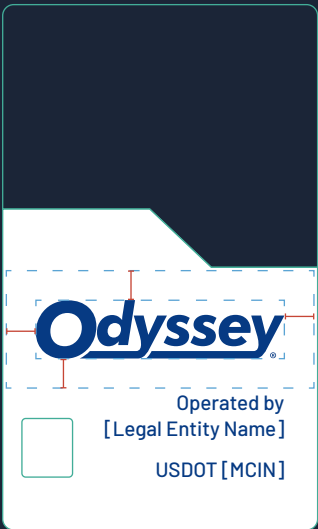

For templates, please contact the Marketing Department at communications@odysseylogistics.com. »

Promotional Items

Bringing Odyssey to Everyday Life

The Odyssey merchandise store is available at <https://www.odysseymerchandise.com/>. The creation of new items requires approval through purchasing.

When procuring promotional items, keep in mind the guidelines presented in this document. The logo should be either Odyssey Blue or White, never any other color – except for black in single-color printing. (see page 6)

Remember to preserve clear space around the logo at least equal to the height of the “s.” (see page 8)

Use colors from the Odyssey palette (pages 18 and 19) to select near approximations in the absence of custom color mixing.

When production allows, use other brand elements to enhance the presentation, including color bars at the correct angle, the Innovating Logistics tagline, or the URL.

Policies

Social Media

A Challenging Environment

Social media consists of a broad range of online activity, all of which is publicized and traceable. Social media can take many different forms.

To view our full policy, contact communications@odysseylogistics.com »

The Company retains all rights to any social media accounts established on behalf of the Company. Only associates whose job functions include responsibility for the content or administration of such sites will be granted access for administrative purposes only.

For questions about these guidelines, or any matter related to media relations or social media at Odyssey, please direct them to communications@odysseylogistics.com »

Odyssey Social Media Policy

- 1 Odyssey Logistics & Technology (Odyssey) employees are personally responsible for the content they publish on social networking websites (Facebook, Twitter, LinkedIn, YouTube, Pinterest, Instagram, TikTok, etc.) or any other form of user-generated media.
- 2 When discussing Odyssey, or Odyssey-related matters, you must write in the first person, and make it clear that you are speaking for yourself and not on behalf of Odyssey or any of its affiliates.
- 3 If you publish content to any personal blog or website and it has to do with work, use a disclaimer: *"The postings on this site are my own and do not represent my employer's positions, strategies, or opinions."*
- 4 Do not provide Odyssey confidential information (this includes any customer's confidential information).
- 5 Do not cite or refer to clients or colleagues without their written approval. If you do have approval, link back to the source when possible.
- 6 Respect your audience. Be mindful of how the language you choose will reflect on you.
- 7 Cite references when possible. Identify who is talking about similar content and link back to them if possible.
- 8 Be aware of your association with Odyssey in social networks. This includes profiles, posts, or statements made.
- 9 Accept and correct any mistakes that you have made.

Social Media Response Plan

Social media sites can often serve as a first line of response to people who have a complaint, concern, or a story to share. The Marketing team proactively monitors for online conversations and social media mentions. Should a complaint arise, please notify Marketing via email immediately with a link to the post. No employee should comment on the post on behalf of the company. Admins are limited to Marketing and Corporate Communications social contacts as determined on an as-needed basis.

QR Code in Use

Contextual Placement

A QR code can be used in a number of ways, depending on the context and purpose of the piece:

- Integrated with a URL and Odyssey Angle line segments
- Integrated with text on simple pieces

See examples at right for these scenarios.

Regardless of the usage, keep in mind proper information hierarchy for the piece being designed. The QR code is rarely the focus of a piece, so be sure it doesn't distract from the main message.

The IT decal shown here is an example of a piece where the QR code is a primary component of a message, but is still integrated cohesively.

QR generation should be requested through the Marketing Department.

Do You Know

how to turn

insights

into results?

Turning data into actionable insights shouldn't be guesswork. At Odyssey Logistics, we combine smart technology, proven processes, and industry expertise to help streamline operations and boost performance. From route planning to warehouse optimization, we uncover efficiencies and deliver measurable results. **Let's get there together.**
